## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a process of producing cling-fasteners.

Group II, claim(s) 9, drawn to an apparatus for producing cling fasteners.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature, an apparatus for forming a cling fastener having a radiation source for curing a resin in a rotating mold or shaping roll, of claim group II, claim 9 is taught by Chesley et al., US Pat. 5,785,784 (see 40:5-48 and Figs. 13 and 14).

A telephone call was made to applicant's attorney, Mr. Mark S. Bicks, on 20-JAN-2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
